EDUCATION

University of California, Irvine
B.S. Informatics, Information & Computer Science Minor

Expected Graduation: June 2027

Regents Scholarship, Dean's Honor List, invited to Campuswide Honors Collegium

PROJECT EXPERIENCE

PeterPlate | Information and Computer Science Student Council

January 2026 - Present

UI/UX Designer

- Apply design thinking and journey mapping to build a 0-to-1 web and mobile interface for a campus dining ecosystem
- Conduct user interviews and usability testing to validate needs and refine high-fidelity Figma prototypes with accessible design considerations.
- Collaborate with developers in an Agile/Scrum environment to produce design specs, prioritize deliverables, and ensure seamless Figma handoff for technical feasibility and consistent cross-touchpoint experiences.

Software Developer

October 2025 - January 2026

- Implemented frontend and backend components using TypeScript, Tailwind CSS, TRPC procedures, and ShadCN, working closely with designers to align development with design requirements and responsive UI standards.

Ēkyu

April - April 2026

UI/UX Designer

- Top 10 Finalist (out of 400+ participants) at UCI Design-a-thon 2026, created an integrated hardware-software solution for selective noise cancellation and authored a comprehensive case study within a 40-hour sprint
- Designed a mobile controller app and physical gesture system, utilizing custom-built icons and brand identity to create a seamless, real-world user experience.
- Interviewed and confirmed design choices with a hearing-impaired individual to design research backed inclusive features.

Cosi | Design at UCI

January 2026 - March 2026

UI/UX Designer

- Designed an app focused on improving household dynamics by integrating conflict-neutral communication flows and task management to visualize and incentivize individual contributions.
- Conducted user research to create user personas and flows that address real friction points with user tested solutions.
- Developed branding and design system on Figma to ensure consistency throughout high fidelity prototyping

WORK EXPERIENCE

Design at UCI

Workshops Coordinator

April 2026 - Present

- Research, create, and present workshops on the latest design trends, design thinking methodologies, and tools like Figma for new and experienced designers.
- Host external workshops at hackathons and other events, incorporating user research insights to tailor content.

UCI Office of Research | Conflict of Interest Oversight Committee

July 2025 - Present

Research Engagement & Compliance Assistant

- Manage compliance documentation by distributing required forms, conducting systematic follow-up communications, and participating in team synchronization meetings.
- Executed a data cleanup project for 2,000+ data items, optimizing database efficiency and data consistency.
- Synthesize complex research project information into concise, actionable summaries. Compile detailed financial interest review packets for committee evaluation processes via independent company research.

Palisades Charter High School

May 2022 - June 2023

Student Union Organizer

- Led over 50 club members in organizing fundraising and community service projects. Oversaw club finances.
- Liaisoned between the student body and school administration to identify and secure funding sources for activities and ensure alignment with school policies and community needs.

PROFESSIONAL SKILLS

Technical: Figma, Framer, Cursor, Claude Code, React, TypeScript, Python, C++, Java, HTML, CSS, UnitTest, GTest

Design & UX Skills: High-Fidelity Prototyping, Wireframing, User Interface (UI) Design, Inclusive & Accessible Design (WCAG), Branding & Design Systems, Design Thinking, Journey Mapping, User Interviews, Usability Testing, Case Study Writing, Persona Development, Information Architecture
